WELLINGTON DE MENEZES to commit the massacre at the school of realengo in 2011 in Rio de Janeiro together with ANDRE LUIS GIL GARCIA, and today they are dedicated in communities to make people with emotional problems commit suicide (they have been successful sometimes), communities like (LEA - Freedom of Absolute Expression).

It also encourages people on the Internet to commit virtual and real crimes, all for the purpose of promoting chaos, and urges his disciples to commit attacks using dynamite-laden drones to blow up bustling places.

He was one of the instigators of the Realengo School Massacre in 2011 in Rio de Janeiro, and had direct links with ERIC EOIN MARQUES, arrested by the FBI in 2013 in Ireland.

He is responsible for actions that involve technical knowledge to share CHILD PORN ", invasions on websites, money laundering arising from international narcotics trafficking through the internet at SILK ROAD and together with the American JOSE GUILHERME FERNANDES ZACARINI, is responsible for recruitment Of new militiamen.

José Guilherme Fernandes Zacarini:

Resident in Chicago, Illinois, Brazilian citizen and naturalized AMERICAN CITIZEN, he recorded a long video where he makes me numerous death threats after I discovered his connection with this international network of pedophiles (see annex of this complaint in drive)

He is responsible for funding this gang of pedophiles, drug trafficking on "SILK ROAD" on the internet and had active participation in partnership with ERIC EOIN MARQUES, better known in Brazil by the Federal Police as "Minister Claudio".

After the arrest of Eric Eoin Marques, Jose Guilherme Fernandes Zacarini, better known as "COELHO PERNA" came to make contact with my person in order to know who would have reported and how

the FBI would have been informed of his arrest due to the OPERATION INTOLERANCE Of the Brazilian Federal Police in 2012 in which I was involved. (Look:)

From then on, he combined to travel to Brazil in late 2015, holding various conversations through the whatsapp application, where he offered proposals to work with him jointly (he did not say what kind of business) but it was investments in "entertainment "And he wanted to apply what he had earned in the United States for more than 20 years of residence

But when he arrived in Brazil, he first met with Yuri Pulsen, who learned "a posteriori" that he had attended brothels in the city of São Paulo and enlisted women to work at his prostitution agency based in Chicago, Illinois.

When he contacted me, he proposed a new venture, but in the first place, he said he "wanted to know me better."

He proposed to me a trip through southern Brazil, where he paid for everything with "money", but when he went to rent a car, he provided his personal documents, which are attached in this statement. He wanted to meet the "women" of Brazil, and we went to travel. He even rented a car on behalf of my brother, who caused an accident, probably he at the entrance of the new year of 2016 put something suspicious in my soda and I ended up "erasing" the steering wheel and crashing.

When he arrived in a certain town called Piçarras and then in "Joinville", I witnessed him taking girls who were under 12 years old to a car, and this in Brazil is considered rape of vulnerable. The copy of the inquiries is attached in this notice in the virtual folder:

<https://onedrive.live.com/?authkey=%21ACSKmojf9T3pzzk&id=7CE4F2DEE9DA8D44%2182585&cid=7CE4F2DEE9DA8D44>

<https://1drv.ms/f/s!AkSN2une8uR8hcQLVK2lbpjERtcbWA>

I threatened to call the police to him, since I was his driver and the initial intention was for him to do only business in Brazil, but he threatened me saying that he would kill me like he killed several prostitutes in the United States, since when he moved to The United States, and that he had contact with drug dealers and gangs of Mexicans who could end me at any moment.

I tried to appease the situation so that he would not be more aggressive, and I bothered to collect as much evidence as possible. When he returned to the United States, he left Curitiba, where he left for hotels. He always received money in cash from the WESTERN UNION, and spent on average with prostitutes and night bars, an average of \$ 2,000 a night.

I saw his plans to set up a dating and marriage agency in Brazil, between Americans and Brazilians, but in the background it was the facade for sex tourism, the official name of the agency was

Wonderfull Dreams, for this purpose, false marriages with the objective of achieving American citizenship just as he did through fraud, and Wonderfull Dreams Spicy, which was focused on underage prostitution and sending prostitutes to first-world countries to prostitute themselves.

Conversation history can be obtained by accessing the whats app accounts I used in the period. He even sent money to set up the company, and then he declined, the purpose of which was to collect evidence against him so that he would come to account for his crimes.

He was identified in messages as paying a sum of R \$ 60,000 to Marcelo Valle Silveira Mello so that he would destroy my reputation on the internet and in my personal life, at the behest of Rafaela de Almeida Vivas Silva, who commanded his life , Since she said that she was raped by him as a child and after being an adult, he started to manipulate him to do what she wanted.

Victim: (the complainant)

Emerson Eduardo Rodrigues:

In 2012, I was linked to countless crimes that I did not commit in the "Operation INTOLERANCE" of the Federal Police of Brazil, which was denounced in the book of the national secretary of justice of the LULA government as being the GESTAPO of the left-petista regime, in the book " REPUTATION MURDER, A STATE CRIME, "he said that the Federal Police were used to chase and assassinate reputations of PT targets with lies and forged evidence.

That's what happened to me, but everything is explained in the BLOG below.

I was always a communist and anti-Nazi opponent.

I have always advocated conservative and capitalist ideals in alignment with the UNITED STATES OF AMERICA.

In 2009 I suffered problems of virtual persecution due to the crimes I was denouncing from allies of the PT in Brazil, crimes that involved murders involving the UNIVERSAL CHURCH OF THE KINGDOM OF GOD, also established in the UNITED STATES OF AMERICA in money

laundering schemes and Murders of people, burning of files. Also in this period, the stepdaughter of a former bishop of the universal church of the kingdom of God and former federal deputy, RAFAELA DE ALMEIDA VIVAS SILVA, her stepfather was a federal deputy and a member of the evangelical group, was a direct advisor to BISPO CARLOS RODRIGUES, MESSAGE, ambulance mafia and LOTERJ bloodsuckers in Rio de Janeiro. The stepdaughter of bishop ILIOBALDO VIVAS SILVA, commonly known as BISPO LEO, the said federal deputy, told me in intimate confessions a priori and threats a posteriori that her father had had the PASTOR VALDECIR PAIVA, who wanted to denounce the scheme of MAFIA DA LOTERJ, SCHEME OF AMBULANCES in which bishop Rodrigues was involved. The Federal Police of Brazil made an oath with the accused, and according to RAFAELA DE ALMEIDA VIVAS SILVA reported to me through numerous copies of emails sent to the headquarters of the federal police in Curitiba in operation intolerance and that were never investigated, BISPO MARCELO CRIVELLA, current mayor Of the city of Rio de Janeiro, was called to broker an agreement with the Federal Police of Brazil at the time ... And he had complicity in this murder! After an ex-girlfriend daughter of a bishop involved in these criminal schemes sent severe attacks on me, one of them containing African people having sex with her and stating that every white man should be sodomized, I recorded a video in India in New Delhi, Where I was living and working because of an outbreak due to the provocations I had been receiving.

At that time I ventured seeking help in social forums, and did not know that those denounced above were involved in them. They urged me to shoot that video, as well as inciting several people to commit suicide (and successfully) among them, Wellington de Menezes, in the Realengo School Massacre, Rio de Janeiro, one of the largest terrorist attacks committed on Brazilian soil.

I accused the Brazilian federal authorities as advocates ANDRE LUIS GIL GARCIA, Marcelo Valle Silveira Mello and José Guilherme Fernandes Zacarini as intellectual mentors of this suicide who entered the Realengo School and killed children.

They tried to incriminate me in things I did not do, and I definitely had the racism crime pardoned in 2015 by the Brazilian judiciary.

The criminals that I denounce in this statement try to destroy me, because because I collaborated with the federal authorities of Brazil not to be accused of things that I should not, they think that their comrade, ERIC EOIN MARQUES was arrested by this Agency (FBI) on account of a telephone confirmation he made through Marcelo Valle Silveira Mello. I had hired Marcelo Valle Silveira Mello as my employee because he has numerous MICROSOFT certifications and is highly qualified technically but is a person with serious mental problems with mental disorders that incline him to commit terrorism, pedophilia, crimes such as drug trafficking And related, hired him to defend me from the attacks I received on the internet without knowing this past he had because he was very well recommended. Today I believe that my political enemies have somehow inserted him

into my life to suggest the defense against the virtual attacks I suffered, but deep down he was indicated to try to incriminate me, which eventually happened, but on account of my collaboration, He ended up incriminating.

They believe that ERIC EOIN MARQUES, who was an ally of RAFAELA DE ALMEIDA VIVAS SILVA, JOSE GUILHERME, MARCELO VALLE SILVEIRA MELLO and ANDRE LUIS GIL GARCIA, had been arrested because of me and they have been trying to incriminate me in every way since 2013, creating blogs loaded with pedophilia, racism among other crimes involving national hatred and commotion.

Eric Eoin Marques maintained constant conversations with Marcelo Valle Silveira Mello, who currently practices these crimes in his place, and assumed in Brazil the operational position of contacts throughout the world for the practice of virtual crimes that involve the crimes previously mentioned.

Today they try to incriminate me in their practices on the internet because they understand that I am a threat to their business of child pornography, reputed murders, and they fear that I will continue to report their crimes.

CRIMINAL COMMUNICATION 2

In the face of the following Notices, all duly mentioned in the above, for the reasons of fact and law:

1. The insider (denouncer, Emerson Eduardo Rodrigues Setim), since landed on the American territory in Las Vegas, NV, United States of America, has suffered threats and attacks through the internet due his political activism "PRO TRUMP " and the situation become worse, because Marcelo and his bunch of criminals, enjoy this situation to sell services to "Kill my reputation" and put me "in the jail " in according with their confessions placed on the videos that were shared with all authorities involved.
2. I have notified the FBI in LAS VEGAS, in person, being attended on that time by the special agent TODD TUMBLESON.
 Since I knew and was informed of these criminal activities involving my name, that its virtual militia leaded by Marcelo Valle Silveira Mello, my personal enemy, because he consider me an informant of the POLICE and "snitcher", they were plotting massacres on the internet and threats, guided by MARCELO VALLE SILVEIRA MELLO and JOSE GUILHERME FERNANDES ZACARINI, through the website dogolachan.org, that only can be accessed using brazilian VPN, they do that, to mislead the authorities and to became null all procedures to sue the main responsible of these criminal activities, that is Marcelo Valle Silveira Mello.

3. The first serious crime of cyberterrorism has occurred in 11th of January of 2017, just on the time that was scheduled one Court hearing with false complains that were applied by Jose Guilherme Fernandes Zacarini, guided by Marcelo Valle Silveira Mello, that are learning international laws on the law school in Brazil, only to understand process how to incriminate enemies and political targets in Brazil. Its militia threatened to blow bombs on the Donald Trump inauguration using my name. Just to call the attention of the authorities to my person. At that time, I called to the special agent in Chicago, Mr Kevin Stoll, and I have fully cooperated with all the investigations, to reach the main suspects. I have gave all informations to them.

4. Jose Guilherme Fernandes Zacarini was the special interested to incriminate me. Since I been in the US, he tried to leave me busy enough and tried to take me away from the US at any cost, because I have denounced him to the local police, BRAZILIAN POLICE and the FBI his crimes occurred in Brazil that involves several crimes like illegal immigration agency, fake documents, pedophilia in Brazil (sexual tourism with minors) thefts of retired persons (jewelry and sell transformed jewelry, invoices and payments of the governments, scam). I have opened the PANDORA BOX of him, and he become very mad and worried. So, he joined deeply to the cybercrimes with Marcelo, that is most know hacker and pedophile racist on the internet since 2004, and in according with several witness including press: https://istoe.com.br/434177_O+CRIMINOSO+DA+INTERNET/ and together with other persons, gave support to him (Marcelo) to threat persons in the USA territory to put me in the jail. But at that time his plainning was failled, because nothing wrong were founded with me, and I was released.

5. Marcelo and the bunch of criminals continued planning the activities on the internet. They discovered a way to put me in the jail, after my legal time expired and I have turned in the illegal alien. In according with immigration procedures, I was transferred to the immigration center placed in Kankakee.

6. In beginning of May, Marcelo after several days planning and plotting his actions, as per you officers can see in attached fille gave to the authorities in Brazil, US and Spain, Marcelo started to blow threats in whole US territory using my name. The local press afterwards replied saying that it was a "HOAX". I have gave all support and cooperation to the FBI, SECRET SERVICE and the NSA.

I have gave my personal computers, cell phones and external drives to show to the authorities that I´m innocent and victim of crime occurred in the US territory. At that time, was attending Mr Brian Rafferty, that was the special agent designed to make a screening on my life. I have also gave to them, DNA in MC HENRY COUNTY to show that I´m not involved in sexual crimes or whatsoever, because Marcelo and his bunch of criminals said that I was involved in rapes and so on. I´m was conservative and right wing at that time, and its doesn´t match with my way of life. No one pictures were founded of childrens or whatsoever in 2012 in the operation intolerance, and with the FBI, all time I have gave

my all passwords and computers to make a screening in my whole live. I was always open. Marcelo never granted any access to the authorities, always using high level of cryptography. He was deported of New Zealand when he tried to scape to there, after those attacks.

7. When Marcelo arrived in Brazil, he promised to destroy the life of Jose Guilherme Fernandes Zacarini, most know as "COELHO", in video where you can recognize his voice blamming and make several kind of threats for him, where he call me as " PEDOLA", only to offend me and take away any kind of credibility. He offered money to my attorneys at that time, to leave me alone and join in its criminal activities. Their names are Eduardo Grassi Gogola and Fernando Grassi Gogola, being Eduardo brazilian and italian citizen. He joined succesfully, because I couldn't pay his services due its several attacks, and Mr Eduardo joined the criminals team since them, giving legal support, advices to Marcelo and the whole group after that.
8. Marcelo has openned several lawsuits against me in Brazil, with fake complains, only to take my time away, mislead, and become my personal life and of my family an nightmare in the Earth. He gets making psichological terrorism attending everyday in DOGOLACHAN.org, and he always says that he enjoys 100% of impunity. I have received meantime, several kind of emails, telling to me that he has personal protection of politicals, criminals and also some corrupt cops in the Policia Federal of Brasil, due its reason, he wasn't arrested. He worked for LULA and PT on the past, and his mother also. The book ASSASSINATO DE REPUTAÇÕES, UM CRIME DE ESTADO, of ROMEU TUMA, former secretary and chief of the corrupt POLICIA FEDERAL of Brasil explained on the first 130 pages that when they want to incriminate one person, they acts like a GESTAPO and ignore all the conventional procedures. That they use these militia on the internet, to provoke political activits, prefereably right wings and conservatives (now I'm neutral, I have anymore no political positions!) to make complains, and then, they will open lawsuits against them, they create FAKE NEWS and several kind of complains.
9. After 4 months of DEEP INVESTIGATION and screening in my whole life, I was released after attending the court hearings in CHICAGO, with the judge SAMUEL COLE, that granted the VOLUNTARY DEPARTURE to my country in Brazil, and giving the opportunity to apply for U VISA in the future, due I was victim of crime in the US TERRITORY.
10. Reportages of the threats in the USA against me that confirmed that it was a HOAX:

CRIMINAL COMMUNICATION 3

When I have arrived in Brazil, I have started to get all files of my family, to apply for any european citizenship. I have discovered that I can apply for the Sephardic Jew, due the ancestry of my grandfathers of the side of my father, that was spanish and portuguese. Also I have trying to get the polish and german side of my mother, that I'm fighting for nowadays.

1. I have arrived in the Italian territory at 18 of March of 2018, Rome airport. Until the 20th of April, Marcelo was trying to discover in which place I'm, because he are opening several lawsuits against me. He tells that I was responsible for some attack that he suffered in Brazil, but its his imagination. He has millions of enemies in Brazil, everywhere. Persons who he incriminated and they know about Marcelo, drug dealers that he snitched and several persons, like Jose Guilherme Fernandes Zacarini, that after Marcelo got his girlfriend, promissed to him that he will kill Marcelo in sometime. Probably he paid someone to attack him, but as Marcelo gets talking against me everyday, he thinks that I'm involved. I dont. Everyday I need to access dogolachan.org to get some proofs and to realize whats they are plotting against me and my family, personally my children since she has 6 months old (now she has 4 years old). They use persons like Arthur Lopes Santana Lima to cum in the picture of my daughter and so on. Also, making special kind of terrorism everyday, with intention to take me away of personal focus of life. They doesn't have personal lives, they gets the whole day plotting bad things through the internet, attacks, and they have special motivation against womens, black persons and jews, like me (my ancestry, not my religion) They hate me due its reason.
2. Marcelo discovered my IP, and wants to use its IP to incriminate me in several threats that he are plotting against the metro substations and so on.
3. I have discovered because their partners, to make a personal kind of terrorism against me, they inform to me whats will going to happens. Marcelo is a psychopatic person, he were diagnostic with Munchhausen, schizofrenia and other mental illness. But he personally is SADIC person WITH trends to comitt suicid and kill people that he hate, but he is a weak and shy in person man, for its reason, he try to persuade someone to make the service for him. Supposedly, him together with Andre Luiz Gil Garcia, have influenced Wellington de Menezes to commit the massacre of

school of Realengo in Rio de Janeiro. In person, he said to me that he was the responsible for that thing, but never the authorities will put any charges for him, because he enjoys of high privileges and traffic of influences in Brazil due his family that has also a general of army married with his aunt, they are public servants and he only was arrested because I have snitched him. He was my former employee, I had an enterprise to offer IT solutions to safety for the telecommunications companies. And some ex colleague have offered by recommendation to hire Marcelo. His name is Tome Antunes of enterprise WAVETEL in Portugal. Probably Marcelo today work for him.(as per he said several times in dogolachan.org and his voice that I have captured through whats app, another his enemy called WALLACE DE JESUS BARROSO (victim), located in Brazil sent these files for me). Marcelo try to incriminate its guy every single day, sending drugs from him, like he did with my professional partner Ralf Gimbel (victim = in Bremen, Germany, only because these people help me. Also when I returned to Brazil, he sent some stranges packages to my home, but fortunately my mother locked up and gave back to the Correios. One week later, the Federal Police of Brazil, called me to talk and ask me about that "package".

4. So now, he are plotting massacres in the train stations in Madrid and in whole Europe using my name, using the same procedures that he made in the USA, as per you officers can realize checking the informations that I have gave in the folder THREATS EUROPE.

11 - That said, **REQUIRES** the Complainant to take legal action by the competent authorities in order not only to prove and guarantee innocence, but also the incidence and application of the penalties and penalties provided for in the Law to whom he is guilty.

Terms in which,

Ask and wait for Deferral.
